8. Plastic cover for connection with PC
9. Plastic cover for power supply
10. Cable sealing
11. Taximeter sealing
12. Sealing for PC connection

2. Basic Operational Modes

- “CLOSED” mode

During this operational mode the taximeter does not display anything. If the vehicle moves, the taximeter will record this distance to the appropriate register.

Press button 1 to enter in “FOR HIRE” mode.

- “FOR HIRE” mode

During this operational mode the taximeter does not calculate any charges. Information about distance traveled without passenger is registered. Letter ‘F’ and sign “FOR HIRE” are displayed.

Press button 2 to enter in “HIRED” mode.

- “HIRED” mode

During this operational mode the taximeter displays the total fare charged for this trip and the sum of extras charged automatically or manually. During “HIRED” mode signs “RATE”, “HIRED” and “€” are displayed. Sign  will be displayed when the taximeter charges waiting time. Press button 1 to enter in “STOPPED” mode.

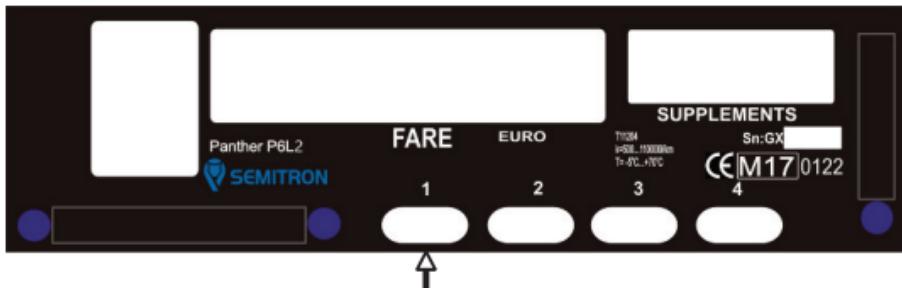

- “STOPPED” mode

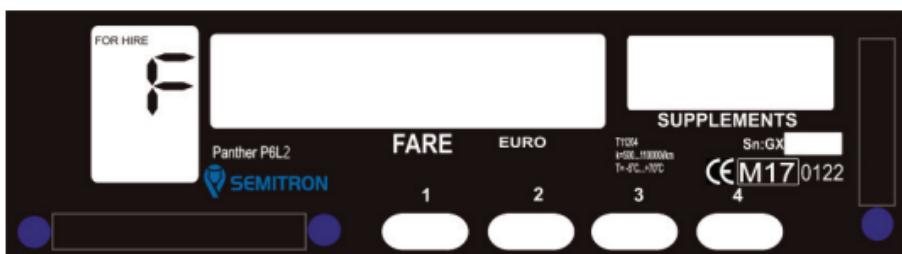

During this operational mode the taximeter displays the charged amount (fare + extra). Signs “STOPPED”, “€” and letter ‘S’ are displayed. Press button 1 for cash or button 2 for credit in order to end current hire.

3. Basic Operations

3.1 Start new shift

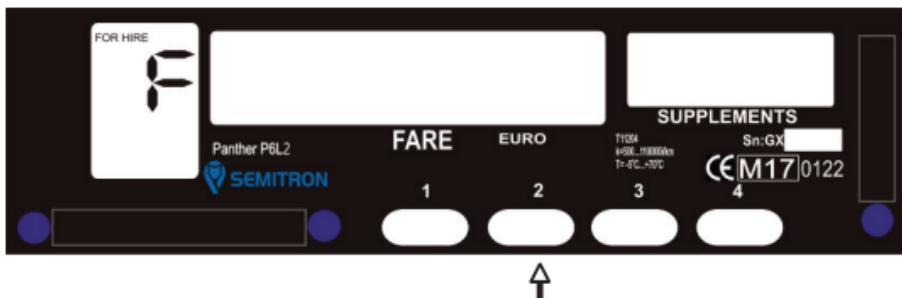

During “CLOSED” mode, press button 1 to Start a new shift.

A new Shift has started.

3.2 Start new hire

During “FOR HIRE” mode press button 2 to start a new hire.

A new hire has started.

3.3 Stop time-charge during “HIRED” mode

During “HIRED” mode hold button 3 and press button 1 to enable or disable the time - charge. If the time – charge is enabled the “Clock” sign will be on.

3.4 Add Extra during “HIRED” mode

During “HIRED” mode press button 4 consecutively to add extra.

Extras have been added at “Extra” display.

3.5 Remove Extra during “HIRED” mode

During “HIRED” mode hold button 3 and press button 4 to delete any added extra.

Extras have been deleted.

3.6 Go to “STOPPED” mode

During “HIRED” mode press button 1 to go to “STOPPED” mode.

Taximeter enters in “STOPPED” mode.

The taximeter displays the sum of fare+extra (if have been charged). After 30 seconds the sum of fare+extra splits.

3.7 Go back to “HIRED” mode

During “STOPPED” mode press button 2 to go back to “HIRED” mode.

3.8 Add Extra during “STOPPED” mode

During “STOPPED” mode press button 4 consecutively to add extra.

Extra will be added at total fare display. After 30 seconds fare and extra will split.

3.9 Remove Extra during “STOPPED” mode

During “STOPPED” mode hold button 3 and press button 4 to delete any added extra.

Extras have been deleted.

3.10 End current hire

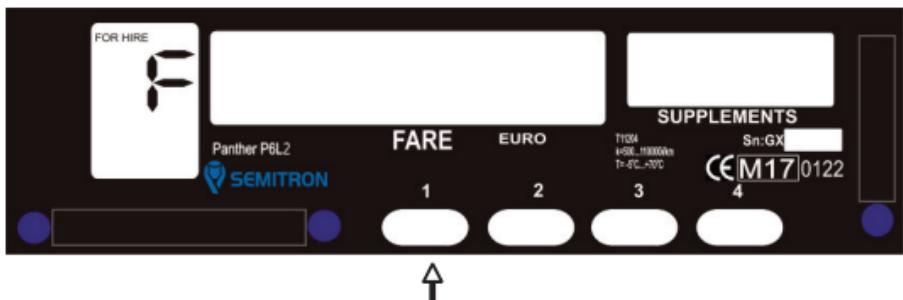

During “STOPPED” mode press button 1 to charge cash or press and hold button 2 for 3 seconds to charge credit. The taximeter will print a receipt (if it is programmed).

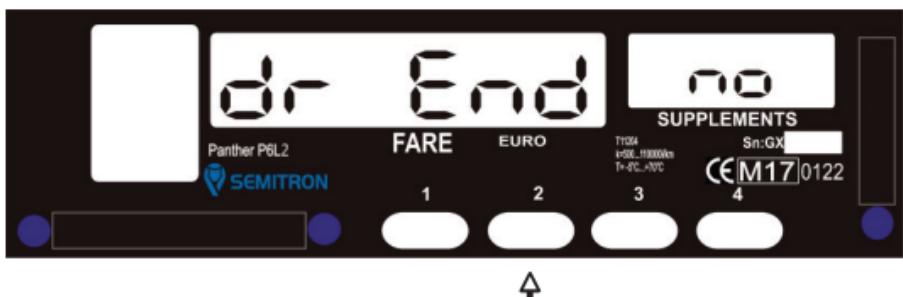

Taximeter enters in “FOR HIRE” mode.

3.11 End current shift

During “FOR HIRE” mode, press button 1.

Press button 2 to select yes/no.

Press button 1 to end current shift.

The shift is closed.

4. Additional Operations

4.1 Show last hire trip cost

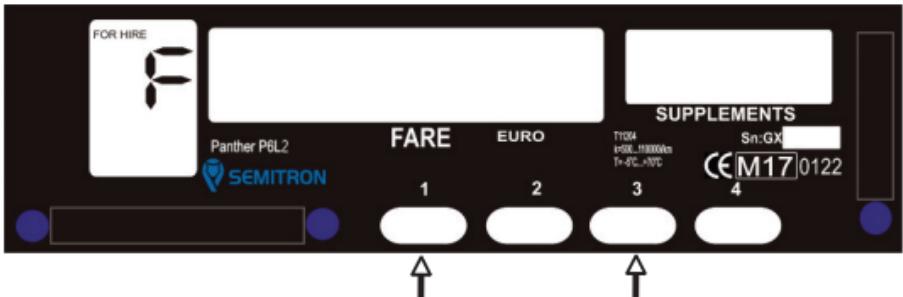

During “FOR HIRE” mode press button 3.

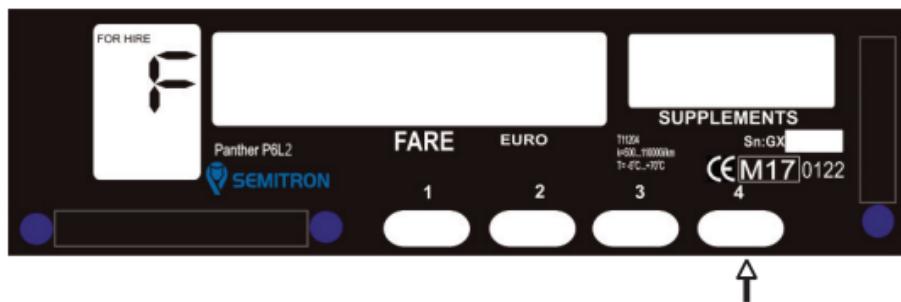

Fare and Extra of the last hire of the current shift will be displayed and after 3 seconds distance traveled. If the current shift has no hire yet, then nothing will be displayed.

4.2 Change brightness

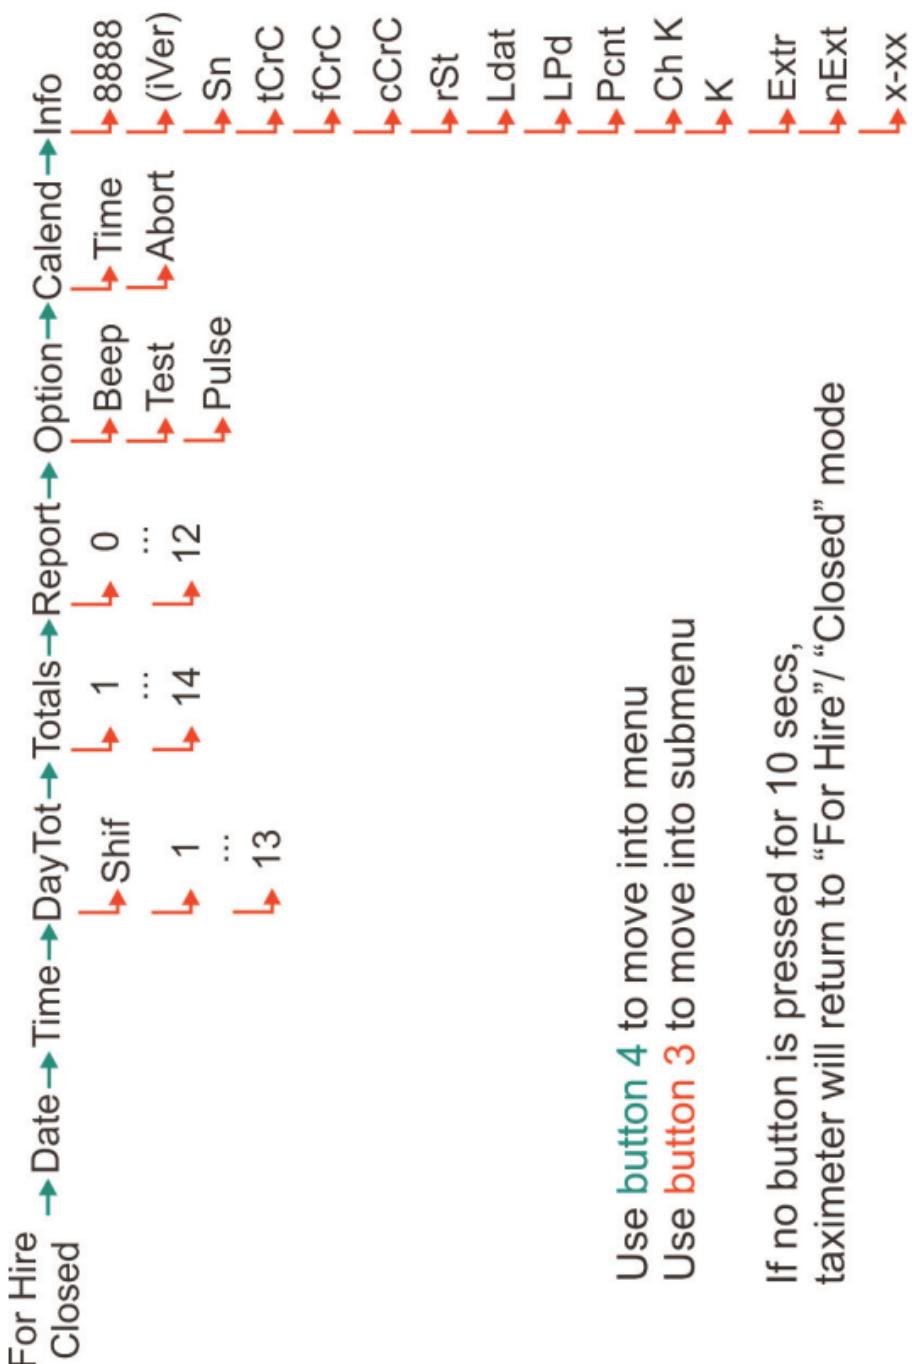

During “FOR HIRE” mode hold button 3 and press button 1 to change the brightness.

4.3 Auxiliary menu

During “FOR HIRE” or “CLOSED” mode press button 4 to enter in auxiliary menu.

4.3.1 Auxiliary menu tree
